

AFRICA ECO RACE 2022

SAVE THE DATES!

Since the difficult and painful decision I had to make at the end of October, it is clear that the **AFRICA ECO RACE** is a big family. Many of you sent us messages of understanding and support and I wanted to thank you all warmly.

This confirms the values of the **AFRICA ECO RACE** that I have been defending from the start: **conviviality, mutual aid, the passion** that drives us while prioritizing the safety of all.

Now all my efforts are refocused on the future to satisfy our cravings for **adventures and escape**.

We are working and planning on the next edition of **AFRICA ECO RACE 2022, MONACO - DAKAR**.

This edition will be organized in the pure tradition with a departure from Monaco. The whole caravan will board the boat towards Morocco. On **January 4th, 2022**, the participants in the **AFRICA ECO RACE** will take the start and travel through **Morocco, Mauritania and Senegal**. After having travelled nearly **6500kms**, all the competitors will meet on the shores of the mythical **Lac Rose**, on **January 16th, 2022**.

In order to **train and be prepared** for this great adventure that is the **AFRICA ECO RACE**, and in the perspective that all the lights are green, I **plan to take you and share with you a new adventure** always in the pure tradition of off-road rallies, in a country which has a **diverse playground and breath-taking landscapes** as we all love. While waiting to unveil this new destination to you, this new rally will take place the **first half of October 2021**, in **5 stages** allowing everyone to escape for a week.

I personally wanted to share with you this new project - strongly advanced - to end this year 2020 on a positive note and look to the future with the desire for new adventures in our mind and continue to satisfy our passion.

I take this opportunity to wish you happy holidays.

Take care of yourself and your loved ones.

Jean Louis SCHLESSER
